Hospital Visits:
- Oslo University Hospital (OUS) is Scandinavia’s largest highly specialised hospital with extensive national, regional and local functions with provision of high quality services for over 12 million patients a year among Oslo’s residents and the entire nation. OUS is responsible for approximately 50 percent of all medical and healthcare research conducted at Norwegian hospitals and is a significant role player within the education of a large variety of health care personnel.
- Akershus University Hospital (AHUS) is a public university hospital located in the municipality of Lørenskog, east Oslo. It is one of four university hospitals affiliated to the University of Oslo. AHUS is a hospital that never closes and all day every day people are at work here. The hospital's main tasks are patient treatment, research and education, of the highest professional caliber. Over 6200 employees work at AHUS delivering health care of exceptional quality to 460000 inhabitants of Romerike, Follo and Alna, Stovner and Grorud in Oslo.
